

LAKSHYA

+91-9034181961 ◇ lakshya.2024@nst.rishihood.edu.in ◇ [LinkedIn](#) ◇ [GitHub](#) ◇ [LeetCode](#) ◇ [Portfolio](#)

PROFESSIONAL SUMMARY

Detail-oriented software engineering intern skilled in data visualization and analytics, with experience building data-driven applications and dashboards. Proficient in Python, JavaScript, Tableau, Excel, Google Sheets, and Looker Studio, with strong problem-solving skills backed by 430+ LeetCode problems. Passionate about turning raw data into clear, interactive, and actionable insights for smarter business decision-making processes and strategies.

EDUCATION

Bachelor of Technology in Data Science
Newton School of Technology, Rishihood University

Aug 2024 – May 2028
CGPA: 8.0/10.0 (Top 10% of cohort)

Intermediate (Class XII)
NRJ Sr Sec School

2022 - 2023
Grade: 80.0%

Matriculation (Class X)
NRJ Sr Sec School

2020 - 2021
Grade: 100.0%

SKILLS

Programming Languages: Python, JavaScript, SQL

Frameworks/Libraries: React, Next.js, Node.js, Express, NumPy, Pandas, Matplotlib

Data Visualization & Analytics: Tableau, Excel, Google Sheets, Looker Studio, Data Analysis

Core Skills: Data Structures & Algorithms, OOP, Debugging, Software Testing, OAuth 2.0

GenAI/Agentic AI: LLMs, RAG, LangChain, LangGraph, Multi-Agent Systems, Tool Calling

PROJECTS

Diabetes Readmission Risk Predictor [\[GitHub\]](#) [\[Demo\]](#)

- Hospitals face diabetic readmissions because risk patterns and early warning factors are hard to identify manually.
- This project uses EDA, preprocessing, ML modeling, and dashboards to predict diabetes readmission risk.
- It helps healthcare teams find high-risk patients early, reduce avoidable readmissions, and improve patient care.

Flipkart Product Review Dashboard Using Tableau [\[GitHub\]](#)

- Built a Flipkart Analytics Dashboard using Tableau to analyze pricing, discounts, ratings, and product trends.
- Cleaned e-commerce product data by handling missing values, standardizing fields, and preparing it for analysis.
- Designed visualizations and insights to highlight product performance, discount patterns, and rating behavior.

CERTIFICATIONS

Full stack generative and Agentic AI with python Certificate - Udemy [\[Certificate\]](#)

Hands-on expertise in full-stack Generative and Agentic AI with Python, including LLMs and RAG pipelines.

ACHIEVEMENTS & EXTRACURRICULAR

AI Buildathon Participation Certificate - GUVI [\[Certificate\]](#)

Validated participation in an AI buildathon, demonstrating practical skills in Agentic AI systems.

SIH Internal Rounds Participant - collaborated with team to deliver functional prototypes under strict timelines.

Open-Source Contributor - collaborated on features and fixes, improving code quality through peer reviews.
